

*Modern solutions for
aged care facilities*

CarePlus™
Aged Care

Why CarePlus™?

CarePlus™ Senior is more than just a simple IP Nurse Call system; it is an aged care application providing greater quality responses, improved staff and resident safety, as well as advanced work productivity and efficiency. This solution delivers significant integration for the highest level of care in facilities requiring resident monitoring. CarePlus™ Senior seamlessly integrates technology, including smartphones, paging, wireless networks, VOIP telephony, ward signs, information boards, email, patient entertainment terminals and duress systems to simultaneously enhance modern resident management and resource optimisation.

| Ward | Message | Call Start Date | Call Start Time |
|-----------------|-------------------|-----------------|-----------------|
| Goldworthy Ward | ROOM 228 BED CALL | 06 May 2013 | 10:44:42 PM |
| Goldworthy Ward | ROOM 228 BED CALL | 06 May 2013 | 10:44:07 PM |
| Goldworthy Ward | ROOM 225 BED CALL | 06 May 2013 | 10:30:50 PM |
| Goldworthy Ward | ROOM 228 BED CALL | 06 May 2013 | 10:26:55 PM |

CarePlus™ Reporting & Messaging Integration:

CarePlus™ Senior has extensive reporting capabilities for superior and innovative communication. Detailed reports and analytics are easily compiled and filtered so relevant reports for any resident are made available at any time period. Resident safety is further improved through Dementia Monitoring and Profiling for exceptional reporting accuracy. Customised reports fulfil the specific needs of each facility to strengthen resident's overall care experience and safety with revamped productivity. The CarePlus™ system's communication integrity fosters peace-of-mind for residents, their families, and caregivers.

CarePlus™ Improves Resident and Staff Safety with Mobile Staff Duress:

Mobile Staff Duress is a fundamental part of the CarePlus™ IP technology suite, designed to function with CarePlus™ Senior to secure the safety of staff and healthcare professionals. Smart Call Points and Real Time Location Tracking (RTLS) provides 100% room accuracy and clinical-grade protection. An easy-to-use tag tracks staff in duress with discrete activation for greater staff and resident safety. A cohesive system offers reliability and scalability to deliver immediate help for staff in duress in any location across any facility. Asset tracking is an additional solution, featuring in the same way as Mobile Staff Duress to locate and track important facility and medical equipment to save time and money.

CarePlus™ Mobile Connect:

The additional benefit of CarePlus™ Mobile Connect app is reduced alarm fatigue for a quieter and more peaceful environment. Caregivers can choose how they respond to alarms, calls or messages via their mobile device to decrease alarm broadcasting. Options of accepting, rejecting or transferring calls is in accordance to the workflow predetermined by the Nurse Manager. Any rejected call auto-escalates to another staff member or group until the call is accepted. Messenger integration can be connected to wired or wireless networks in CarePlus™ Senior.

CarePlus™ Advanced Features:

1. CarePlus™ Senior employs an IP system with durable ARM processors and IP Call Points for accurate priority and location data at reduced commissioning and operational costs.
2. CarePlus™ Senior has smart, in-built software for secure and fully traceable messaging; connectivity included to Apple, Android, DECT and Cisco devices for flexible integration.
3. CarePlus™ Senior complies with HIPPA and AS3811 hard-wired patient alarm systems.
4. CarePlus™ Senior is a tamper-proof, resilient, compliant and productive system, surpassing staff and resident expectations.
